THE CHINESE QUESTION.

The expediency of adopting some measure by which that portion of our population composed of Chinese will be compelled to contribute something like their fair quota towards the revenue of the colony is one of those subjects to which we have devoted considerable attention, ever since the establishment of this journal, and one of the few which has not already received proper attention at the hands of the Legislature. We are quite aware of the difficulties with which the question is beset. The Governor, in his reply to a petition praying that the Chinese miners might be compelled to take out mining licenses, says: "In reply I am to inform you that Her Majesty's instructions expressly prohibit the Governor from assenting to any Ordinance whereby persons of African, Asiatic, or Indian birth may be subjected or made liable to any disabilities or restrictions to which persons of European birth or descent are not also subjected or made liable. If, therefore, the Chinese be compelled to take out licenses, the compulsion must be made universal." It were little better than a mere waste of time for us to undertake the task of showing how unfair it is to impose such restrictions upon Colonial Governors. Circumstances alter cases; and what might be good policy in one colony might be a very bad policy in another. Hence the propriety of leaving all such cases to be treated by the Colonial Governments, as circumstances may dictate. The doctrine of "no class legislation"—treating all alike, without respect to color, creed or origin, is very pretty as an abstract theory; but it will not always stand the test. Look at the case of this colony, for instance. We have a population of about ten thousand Europeans and six thousand Chinese. To say that the same legislation is equally adapted to these two classes, falls equally justly upon both, is simply nonsense. The revenue is raised chiefly from an import duty upon what is consumed. The Chinaman consumes a sixpence worth of rice per diem, boiled in a sixpenny tin pot, and eaten with chop-sticks which have paid no duty. The European lives upon bread and bacon and beans and sugar and tea and syrup and butter, and drinks his wine and smokes his cigar, at the average rate of eight shillings a day. There is, perhaps, a similar disproportion in the consumption of clothing. Thus it will be seen that the European is contributing eight shillings towards the revenue of the country for every sixpence that the Chinaman contributes! We will, perhaps, be told that some of the Chinese live well. True. Some do live at the rate of one or two dollars a day; but it is equally true that some Europeans spend ten and fifteen dollars a day; and we opine these form as rare an exception in the former class as in the latter. But there is another point in respect of which our laws fall equally unfairly upon these two classes. Miners of European origin—we use the term European generally in contradistinction to Asiatic—as a rule take out a mining license every year, thereby contributing in this way one pound per head per annum towards the general revenue. Chinese, as a rule, do not take out a license, and consequently evade this tax, although constantly and successfully engaged in taking out gold. The cry about class legislation is mere empty bunkum. The population is composed of two classes, essentially different in their habits and destination. God has made them to differ, and all the moralizing of Exeter Hall or the dictum of Downing Street will not harmonize them. The same laws are not applicable to both, and why should we be hindered from legislating for each? Other colonies have been permitted to exact a special tax from that class of miners; and why should a similar right be denied to British Columbia? In South Australia there are 80,000 Chinese, from whom the Government collects a special tax of thirty shillings a head, thus raising annually the handsome sum of £120,000 from that source alone. And we are assured that the tax is paid without a murmur, as tax-paying goes. Why should our six thousand Chinese in this colony be allowed to get off almost scot-free when the small and straggling white population is ground to the very earth by

taxation? Do they make better colonists or better subjects than they should be thus practically exempted? Who ever heard of Chinese becoming permanent settlers—turning British subjects? Is it to that class of the population that the Government will look in time of war to protect the soil against the invader? Why then all this prating about "equal rights?" The same laws applied to two classes so essentially different will not confer equal rights, but the very opposite. But this "no class legislation" cry will not bear investigation. Do we treat all alike without respect to origin &c., when we place certain disabilities upon the foreigner in the matter of acquiring land, and voting at elections? Is not the Indian, although a British subject, virtually disfranchised? If it is proper to make fish of one, and flesh of another in respect to political rights and the acquisition of property in the country, why should it not be allowable by special legislation to meet specific cases in respect to mining privileges and matters affecting our revenue? But it is useless to kick against the pricks. The "instructions" from Downing Street in this as in many other matters clog the wheels of enlightened and progressive legislation. The Imperial "thou shalt not" puts an insuperable barrier in the way, and we must needs submit, for the present at least. But "better," says the Scotch proverb, "a dyke side than nea beild." If we must submit to Downing Street dictum, let us at least avail ourselves of the alternative contained in the above extract from the Governor's reply to the petition:—"If, therefore, the Chinese be compelled to take out licenses, the compulsion must be made universal." The Chinese, as a class, do not now take out licenses. The Europeans do. Let the "compulsion be universal." Let the few Europeans pay the pound a year in order that the many Chinese may be made to pay it. Thirty thousand dollars a year added to our revenue from a class of the population the least valuable and the lightest taxed, is not to be despised. It would be an increasing source of revenue, for there is every probability of a very large influx of Chinese, and would enable the Government to relieve trade and industry of some of those grinding imposts by which the spirits of the people are being weighed down.

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

This Journal is the oldest newspaper published in British Columbia, and is read by every business man from New Westminster to the Rocky Mountains, and is unrivalled as an advertising medium for this Colony. J. DORAN, in Victoria, and L. P. FISHER, in San Francisco, are our authorized Agents.

The British Columbian.

NEW WESTMINSTER, THURSDAY, JUNE 15, 1865.

Good News from Kootenay.

The Chronicle of Tuesday contains the following highly interesting information from Kootenay, which, from the source from which it is obtained, would appear to be perfectly reliable, and is little more than a corroboration of what has been repeatedly asserted in these columns. The opening of rich diggings in the locality indicated is of the most vital importance to this colony, inasmuch as its proximity to the head of navigation on the Shuswap Lake and its accessibility will have a tendency to place the trade of that region entirely within our control. Should this new gold field at all come up to the estimate we have formed of it, and which the latest information would seem to justify, we shall all have our hands full enough:—

"The officers of the Hudson Bay Company in this city have received a letter from their trader at Fort Sheppard, dated 28th May, which states that one of the prospecting boats which passed that point in the beginning of April had returned that morning. The prospectors reported that they had made rich discoveries of gold fields on a creek about 60 miles above the Upper Arrow (or as some term it, Upper Columbia) Lake. A sample of the gold was shown by the men. It much resembled Kootenay gold in appearance and weighed about an ounce. They were in such haste to proceed on to Colville that the writer could gain no particulars other than the diggings are very rich and extensive.

Fort Sheppard is situated on Columbia River just above the 49th parallel. The Wild Horse Creek or Kootenay diggings are near the 50th parallel, in a north-west direction from the Fort. The new diggings are situated on the Columbia, between the 51st and 52nd parallel, 200 miles due north of Fort Sheppard, and in a straight line from Shuswap and Kamloops Lakes, and on a direct line with the proposed wagon road from the headwaters of Thompson River to Kootenay. The importance of the discovery cannot be over-estimated, as it will bring a large body of miners within reach of the British Columbian trader during the present season. We await further advices with impatience."

ANTOINE, THE MURDERER.—The Victoria papers publish a statement, based upon data obtained from the captain of the schooner *Nonpareil*, to the effect that he (the captain) saw Antoine, the murderer of Ogilvy, at Fort Rupert about the 5th inst., but was not at that time aware of the murder. The two papers do not quite agree in the story; but one of them, the *Chronicle*, says that Antoine gave the Indians who brought him down an order on Mr. Hunt, of the Fort, for eight blankets, and taking an axe and a camp-kettle went ashore, and that Capt. Stephens subsequently fell in with H. M. ship *Camelion* and communicated the information to the officer in command, and the paper adds: "Capt. Stephens thinks that within 24 hours after the *Camelion* reached Fort Rupert Antoine was in custody." Now we should be very glad to believe all this, but there are at least two points calculated to throw discredit upon the statement. In the first place, is it reasonable to suppose that the murder of Mr. Ogilvy, which happened on the 8th May, was unknown to the captain of the *Nonpareil* on the 5th June? Secondly, as Antoine can neither read nor write it is probable that he could give the Indians an order upon Mr. Hunt for the blankets? We would only be too glad to find that the whole story is true, and especially gratified should Capt. Stephens' prediction as to the taking of Antoine turn out to be correct, but for the present we must be excused for suspecting otherwise.

STEREOSCOPICON.—Wisely & Wormer's Stereoscopy has arrived, and will be exhibited in the Volunteer Drill Hall, this to-morrow and Saturday evenings. It consists of colored views of the most striking scenes and objects connected with the great American rebellion, including portraits of the Presidents and principal Generals, together with several beautiful views of the Sandwich Islands, California, Canada, England, Scotland, France, Germany, Switzerland, Italy, Egypt, &c. The exhibition, altogether, would appear to be at once the most comprehensive and attractive hitherto offered to the public, and will doubtless be visited by the community generally. Many of the portraits and views connected with the American rebellion will possess a peculiar interest at the present moment. For particulars see advertisement.

MORE PEOPLE AND MORE SHEEP.—The steamers *Enterprise* and *Alexandra* arrived from Victoria on Tuesday evening, the former having a cargo of general merchandise and 160 passengers, chiefly Chinamen, and the latter having 29 passengers and 352 sheep from Steilacoom. The sheep belong to Mr. DeYoung, of Yale, and are destined for the Cariboo market. They were shipped to Yale by the *Lillooet* yesterday.

THE VICTORIA "ELEPHANT."—We observe by the Victoria papers that the steam dredger, *alias* the Elephant, has at length been laid up and the crew paid off. Our neighbours have been extremely unfortunate in the abortive attempt to improve their harbor. The dredger cannot have cost less than \$100,000, and the benefits likely to be derived from it are very problematical indeed.

THE "RELIANCE."—This steamer was towed into port on Tuesday by the *Lillooet*, and now lies at the wharf, awaiting the new flanges for the wheel. It is probable she will be ready to resume her regular trips on Saturday. Capt. Irving went to Victoria on Tuesday by the *Caledonia* for the purpose of superintending the casting of the flanges.

THE MOUTH.—The Harbormaster returned from the Mouth of the Fraser on Sunday, having succeeded in constructing a substantial crib-beacon on the North Sand, and five other beacons as channel marks. The sailing directions will, we presume, be published immediately.

RAIN, RAIN.—This is, so far, decidedly the rainiest season we have known in the colony. It rained all day yesterday without intermission with no appearance of clearing up as we go to press.

HIS EXCELLENCY GOVERNOR SEYMOUR went over to Esquimalt yesterday in his steam-yacht *Leviathan*. His Excellency is presumed to have gone down upon business with the Admiral.

FOR NANAIMO.—The str. *Caledonia* leaves to-day for Nanaimo. She will call at Moody & Co's mills, Burrard Inlet, on her return, for the purpose of bringing the timber for the construction of the belfry. She will probably be back to-morrow.

TOO BAD.—We are still without our telegraphic dispatches from the East. It appears to us that the line must be very defective either in construction or management, or both.

MARRIED.

At the Wesleyan Parsonage, in this city, on the 14th inst., by the Rev. E. Robson, MR. JOHN ALLOWAY CALBICK, to MISS LYDIA ANN CHURCH, both of this city.

DIED.

At Victoria, V. I., on the 12th inst., GEORGE MYNRO, son of Mr. Malcolm Munro, contractor, of British Columbia.

LOCAL IMPROVEMENT.—We were surprised when passing down Columbia-street yesterday to notice the fine display of new goods at the store of Messrs. Clute & Major, and upon closer inspection we found they were selling Dry Goods, Clothing, Boots, Shoes, &c., at lower rates than we have ever before seen in this city. Truly this is a local improvement.

PORT OF NEW WESTMINSTER.

" 14.—Str. *Hope*, Devries, Douglas.

Reply to Caustic.

To the Editor of the *British Columbian*.

Sir,—A letter appeared in your last issue signed Caustic, which makes severe strictures on me for giving to my constituents at Douglas a good honest account of my labours on their behalf in the late session of the Legislative Council. I have no doubt the opinions there expressed do not meet with the views of the writer, who, as I think, opposed not only to our district, but to the interest of the whole colony, and has shown in his public life, where self is concerned, that he will not let trifles stand in the way to gratify his ambition. However let him now show himself and come forward with his real name, and not try to hide himself under an assumed name. We have had a good deal of anonymous writing lately, and it appears to me cowardly to make attacks and be afraid of publishing your name. We want to know our friends from our enemies, and I do not see what there is to be afraid of in coming manly forward, instead of stabbing in the dark and then running away.

I think when Caustic accuses others he ought to try, if he can, to keep to the truth himself. He says that I made a most uncalled for attack on Capt. Ball, for remarks he made in the Legislative Council against the Douglas District; in answer I have simply to refer him to the report of our meeting, and to state, in his own language, that what he states is utterly false. No attack was made by me; I was asked a question and to that I replied to the best of my belief. I remembered the statement being made about the surprise, the exact debate; however it is now my duty to correct the error I then fell into in saying that it was in the debate about the slough, and had had no effect on the Legislative Council, I find in reference to the reports in the paper that it took place on the 25th January and had the effect of permission being refused to place an advertisement even in the *Government Gazette*, to see if the improvement of the Harrisonmouth Rapids would cost the immense sum to improve them stated to be the case by Caustic and his party. (For particulars see report in the newspaper of the 25th January) I leave the public now to judge between us as to whether I made any attack on Capt Ball or not, by simply answering a question put to me, to the best of my belief.

As to Caustic's remarks of egotism, vain-glory, gross ignorance and silly ignorance and silly vanity, I pass it over as being well worthy of Caustic and his friends, and he might have added the words, when applied to his party, of selfish, sly, and careless as to the means employed to carry out their own ends, and thereby ruin the colony. I hope my colleagues will not allow idle clamour of this sort to keep them back; but

come forward and render an account of their stewardship, as I have done, and hope again to do for other parts of the district before the next Council meets, and receive a resolution such as was unanimously passed at Douglas, which is a full reply to Caustic, who professes to be so very learned, and all his intrigues.

H. HOLBROOK.

New Westminster, June 13th, 1865.

Let Him be Heard.

We give the following communication a place in our columns with pleasure, because we are at all times desirous of allowing those who may differ from us, and especially the working man—the bone and sinew of any country—an opportunity of expressing their views touching matters of public interest. It will hardly be necessary to say that our correspondent does not put his case quite correctly:—

MR. EDITOR,—In your editorial of Tuesday you state that there are not sufficient white men to be had to work on the public works, when on that very day there were 20 men discharged from off the Sapperton Road, and several more in town who are only too glad to find employment.

You further state Government is forced to employ Chinamen for scarcity of white men, which, sir, under my own observation, is nothing more than a private individuals employing Chinese labor in preference to white, simply because it is the cheapest. If you will please to observe you may see parties taking contracts in and round town, at such low rates that it is impossible to employ white men and pay wages suited to the present rate of *muck-a-muck*.

You further state, let the real character and circumstances of the colony be proclaimed. Now, sir, under the circumstances, would you relish the above dispatched to the *Times* instead of to your own paper, when only in a recent issue you asked if it were known in England that emigrants had to compete with Chinese labor, and now flatly contradict your statement.

I am, dear Mr. Editor,

A WORKING MAN.

PUBLIC NOTICE.

SEALED TENDERS will be received at the Lands & Works Office, New Westminster, up to noon of Wednesday, 21st June, for the construction of a Wagon Road from the present terminus of the Douglas Street Road from Burrard Inlet at the intersection of Melbourne Street with Douglas Street, in the city of New Westminster, along the centre of Douglas Street to Columbia Street, being a distance of about 65 chains.

With each tender must be enclosed a bond of the person tendering, and of two responsible sureties with him, for the payment to the Government of the sum of \$500 conditional on the non-fulfilment by him of the terms of his tender if accepted.

The lowest or any tender not necessarily accepted. Further particulars can be had by applying at the Lands & Works Office, New Westminster, where the Specifications and form of Bonds can be seen.

Tenders to be addressed to the Chief Commissioner of Lands & Works, and superscribed "Tenders for continuation of Douglas Street Road."

By command,

healing properties of this excellent Ointment. The
worst cases readily assume a healthy appearance when
ever this medicament is applied; sound flesh springs
up from the bottom of the wound, inflammation of the
surrounding skin is arrested, and a complete and per-
manent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflam-
mation.

These distressing and weakening diseases may with
certainty be cured by the sufferers themselves, if they
will use Holloway's Ointment, and closely attend to the
printed instructions. It should be well rubbed upon
the neighbouring parts, when all obnoxious matter will
be removed. A poultice of bread and water may some-
times be applied at bed time with advantage; and most
scrupulous cleanliness must be observed. If those who
read this paragraph will bring it under the notice of
such of their acquaintances whom it may concern, they
will render a service that will never be forgotten, as a
cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and
subduing pain in these complaints in the same degree
as Holloway's cooling Ointment and purifying Pills.
When used simultaneously they drive all inflammation
and depravities from the system, subdue and remove
all enlargement of the joints, and leave the sinews and
muscles lax and uncontracted. A cure may always be
effected, even under the worst circumstances, if the use
of these medicines be persevered in.

Eruptions, Scald Head, Ringworm &
other Skin Diseases.

After fomentation with warm water, utmost relief and
speediest cure can be readily obtained in all complaints
affecting the skin and joints, by the simultaneous use of
the Ointment and Pills. But it must be remembered
that nearly all skin diseases indicate the depravity of
the blood and derangement of the liver and stomach;
consequently, in many cases, time is required to purify
the blood, which will be effected by a judicious use of
the Pills. The general health will be readily improved,
although the eruption may be driven out more freely
than before, and which should not be promoted; per-
severance is necessary.

Sore Throats, Diphtheria, Quinsy,
Mumps & all other Derangements
of the Throat.

On the appearance of any of these maladies the Oint-
ment should be well rubbed at least three times a day
upon the neck and upper part of the chest, so as to
penetrate to the glands, as salt is forced into meat;
this course will at once remove inflammation and ulcer-
ation. The worst cases will yield to this treatment by
following the printed directions.

Serofula or King's Evil and Swelling
of the Glands.

This class of cases may be cured by Holloway's puri-
fying Pills and Ointment, as their double action of puri-
fying the blood and strengthening the system renders
them more suitable than any other remedy for all com-
plaints of a serofulous nature. As the blood is impure
the liver, stomach and bowels, being much deranged,
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following
cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and	Sore Nipples.
Burns.	Stiff Joints.	Sore Throats.
Bunions.	Stiff Joints.	Skin Diseases.
Bite of Mosquitoes.	Fistulas.	Scurvy.
and Sand-Flies.	Gout.	Sore-heads.
Coco-bay.	Glandular Swel-	Tumors.
Cheeger-foot.	lings.	Ulcers.
Corns (soft).	Lumbago.	Wounds.
Cancers.	Piles.	Yaws.
Chilblains.	Rheumatism.	

Sold at the establishment of PROFESSOR HOLLOWAY
244, Strand, (near Temple Bar) London; and by all re-
spectable Druggists and Dealers in Medicines through-
out the civilised world, at the following prices:—Is.
1d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.
* * * There is a considerable saving by taking the
larger sizes.

N. B.—Directions for the guidance of patients in
every disorder are affixed to each Pot. au15
